

To the Members of the Judicial Committee,

As a member of the Town Council for the Town of Montville, I have been opposed to the residential sex offender facility coming to Montville since we first learned of it last year.

I'd like to say that I agree with all of what Mayor Joseph Jaskiewicz said but I'd like to emphasize that I find it very disappointing Montville has been chosen as the site of this facility. The process which was followed was not consistent with the established criteria for choosing such sites.

As well as not having the criteria followed, I feel that Montville has already done its part with currently housing over 1400 inmates. How much more should we be required to absorb? Montville has done its part and I strongly urge you to pass House Bill 6632.

Thank you,

William "Billy" Caron
